05

When the System Breaks Down

Coming up.

HEAR THIS ONCE

MOST FAMILIES TREAT
YOUTH SPORTS LIKE
A THING TO FIT IN.
THAT'S WHY IT FEELS
LIKE CHAOS.

When sport is treated as an extracurricular, the experience feels rushed, reactive, and joyless. It doesn't have to.

- STRUCTURE CREATES FREEDOM

TWO WAYS TO DO THIS

EXTRACURRICULAR VS. DEVELOPMENT PROGRAM.

- Extracurricular: fit it in, react to it, survive it
- Development program: prepare for it, reflect on it, grow from it
- The difference isn't commitment level — it's intention and structure

— SPORT TEACHES WHAT YOU ALLOW IT TO TEACH.

05 · WHAT GETS LOST

THE EXTRACURRICULAR COST

RUSHED DECISIONS

Last-minute logistics, emotional reactions, no time to prepare or reflect.

LOST LESSONS

Teachable moments blur by because no one created space to use them.

FADING JOY

The logistics crowd out the love of the game.

06 · WHAT BECOMES POSSIBLE

THE DEVELOPMENT PROGRAM GAIN

INTENTIONAL PREPARATION

Nutrition, sleep, mental readiness treated as part of the sport.

CONNECTED ATHLETES

Kids who understand why the choices they make affect how they perform.

FAMILY AS A TEAM

Everyone knows their role and operates with a shared goal.

07 · REMEMBER THIS

SAVE THIS COME BACK TO IT

SPORT DOESN'T TEACH
THESE LESSONS AUTOMATICALLY.
IT TEACHES THEM
WHEN YOU TREAT IT
LIKE A SYSTEM.

SAVE THIS. COME BACK TO IT.

- STRUCTURE CREATES FREEDOM

THIS WEEK

THIS WEEK, MAKE ONE INTENTIONAL SHIFT.

- ✓ Identify one moment from last week that was rushed and reactive.
- ✓ What would it have looked like if you'd prepared for it intentionally?
- ✓ Name one habit you could add to your pre-tournament routine starting now.
- ✓ Ask your athlete: what would make this feel less like a chore and more like something you chose?

SPORT AS A DEVELOPMENT PROGRAM

THE FAMILY
OPERATING SYSTEM

02

EVERYONE HAS A ROLE. NOT EVERYONE KNOWS WHAT IT IS.

THE SERIES

05

When the System Breaks Down

Coming up.

HEAR THIS ONCE

A FAMILY WITHOUT
CLEAR ROLES IS A
TEAM WITHOUT
A GAME PLAN.

When roles are undefined, parents over-function, athletes under-own, and everyone ends up frustrated.

— CLARITY OF ROLE DETERMINES QUALITY OF CONTRIBUTION

THE THREE ROLES

ATHLETE.
PARENT.
COACH.
NONE OF THESE
OVERLAP.

- Athlete's role: show up prepared, stay coachable, own the outcome
- Parent's role: create conditions, regulate emotion, trust the process
- Coach's role: develop the player in front of them, not the parent's vision

— WHEN PARENTS COACH AND COACHES PARENT, ATHLETES LOSE.

05 · WHEN ROLES BLUR

THE OVERLAP PROBLEM

PARENT COACHES FROM STANDS

Athlete learns to look for answers from outside instead of finding them inside.

PARENT MANAGES COACH

Athlete learns her parent doesn't trust the process, and neither should she.

PARENT REGULATES EMOTION

Athlete never develops her own emotional recovery system.

06 · RESETTING THE SYSTEM

THE ROLE RESET CONVERSATION

NAME THE ROLES

Explicitly define what each person is responsible for this season.

THE ONE-QUESTION TEST

Before any action: is this my role or am I taking someone else's?

COURSE CORRECT TOGETHER

When roles blur, name it, reset it, move on without shame.

07 · REMEMBER THIS

SAVE THIS COME BACK TO IT

THE ATHLETE GROWS FASTEST
WHEN THE PARENT
DOESN'T DO THE ATHLETE'S JOB
FOR HER.

SAVE THIS. COME BACK TO IT.

— ONE ROLE PER PERSON

THIS WEEK

DEFINE ROLES BEFORE THE NEXT PRACTICE.

- ✓ Write down what you believe your athlete's job is this season.
- ✓ Write down what you believe your job is, and where those two things might currently overlap.
- ✓ Have a 10-minute conversation with your athlete about roles before the next practice.
- ✓ Pick one thing to stop doing that belongs to her role, not yours.

SPORT AS A DEVELOPMENT PROGRAM

PREPARING
INTENTIONALLY,
NOT PERFECTLY

03

THE GOAL IS AWARENESS, NOT A PERFECT ROUTINE.

THE SERIES

FIVE LESSONS. ONE PLAYER.

Connecting Choices to Outcomes

Coming up.

05

When the System Breaks Down

Coming up.

HEAR THIS ONCE

YOU DON'T NEED
A PERFECT SYSTEM.
YOU NEED AN
INTENTIONAL ONE.

Families who try to build a perfect routine quit when it breaks. Families with an intentional one adapt.

— AWARENESS OVER PERFECTION

THE PREPARATION SYSTEM

BEFORE THE TOURNAMENT
STARTS ON THE COURT,
IT STARTS AT HOME.

- Physical: sleep, nutrition, hydration treated as part of the sport
- Mental: managing school load, social stress, and energy before competition
- Emotional: knowing how you're arriving not just showing up

PREPARATION IS NOT A LUXURY. IT'S PART OF THE TRAINING.

05 · MAKING IT PRACTICAL

WHAT PREPARATION LOOKS LIKE

NUTRITION

Let athletes help plan meals so they feel the connection between food and performance.

SLEEP

Protect it the week before a tournament the same way you protect practice attendance.

EMOTIONAL CHECK-IN

A simple 'how are you arriving today?' before competition changes what she brings to the court.

06 · WHEN THE SYSTEM BREAKS

ADAPTING, NOT COLLAPSING

NAME THE GAP

When the routine breaks, name it out loud: 'we're not as prepared as usual, that's okay.'

ADJUST, DON'T ABANDON

One bad prep weekend doesn't mean the system doesn't work.

LEARN FROM IT

What does a 'under-prepared' performance teach? That's a lesson you can't get any other way.

07 · REMEMBER THIS

SAVE THIS COME BACK TO IT

THE ATHLETES WHO
PERFORM WHEN IT COUNTS
PREPARED FOR IT
BEFORE IT ARRIVED.

SAVE THIS. COME BACK TO IT.

— PREPARE FOR THE GAME YOU'RE PLAYING

THIS WEEK

BUILD ONE PREPARATION HABIT THIS WEEK.

✓ Pick one area sleep, nutrition, or mental check-in and add it to pre-tournament routine.

✓ Involve your athlete in designing it so she owns it, not just follows it.

✓ Try it once before next competition.

✓ Debrief after: did it change how she felt? What would you adjust?

SPORT AS A DEVELOPMENT PROGRAM

CONNECTING CHOICES
TO OUTCOMES

KIDS DON'T LACK INFORMATION. THEY LACK EXPERIENCE OF THE CONNECTION.

THE SERIES

FIVE LESSONS. ONE PLAYER.

04

Connecting Choices to Outcomes

← You are here

05

When the System Breaks Down

Coming up.

H E A R T H I S O N C E

Your athlete knows
what she's supposed
to do.
She just hasn't
felt why it matters.

Knowing something intellectually and feeling its impact are two completely different things. The second is what changes behavior.

— EXPERIENCE TEACHES WHAT INSTRUCTION CANNOT

THE CONNECTION GAP

FROM KNOWING TO FEELING TO CHOOSING.

- She knows hydration matters: but hasn't felt a performance crash yet
- She knows sleep affects focus: but hasn't connected a tired practice to a late night
- She knows nutrition fuels output: but hasn't experienced the difference intentionally

— CREATE THE EXPERIENCE. THEN ASK THE QUESTION.

05 · HOW TO CREATE THE CONNECTION

THE EXPERIENCE MODEL

LET IT HAPPEN

Allow her to play one match on poor sleep, poor fuel, or poor prep: then debrief it.

ASK, DON'T TELL

'How did that feel?' is more powerful than 'I told you so.'

BUILD THE PATTERN

Over time, she starts making the connection herself: that's when behavior changes.

06 · THE PARENT'S ROLE

GUIDE, DON'T MANAGE

GAMIFY IT

Track hydration or sleep with her: make it a shared experiment, not a rule.

CELEBRATE THE CONNECTION

When she makes the link herself, recognize it. That's a milestone.

STAY CURIOUS

Ask questions instead of giving answers. Curiosity builds awareness.

02

07 · REMEMBER THIS

SAVE THIS COME BACK TO IT

THE LESSON SHE LEARNS
BECAUSE SHE FELT IT
STICKS FOR A CAREER
THE ONE YOU TOLD HER
FADES BY SATURDAY.

SAVE THIS. COME BACK TO IT.

— EXPERIENCE OVER INSTRUCTION

THIS WEEK

CREATE ONE CONNECTION EXPERIMENT THIS WEEK.

- ✓ Pick one choice-outcome pair: sleep, fuel, or mental prep.
- ✓ Let her experience the natural result of one under-prepared moment.
- ✓ Debrief with one question only: 'how did that feel?'
- ✓ Watch what she does differently next time, don't prompt it.

SPORT AS A DEVELOPMENT PROGRAM

WHEN THE SYSTEM
BREAKS DOWN

OS

EVERY FAMILY'S SYSTEM FAILS. THE QUESTION IS WHAT YOU DO NEXT.

THE SERIES

FIVE LESSONS. ONE PLAYER.

01

From Extracurricular to Enrichment

02

The Family Operating System

Complete.

03

Preparing Intentionally, Not Perfectly

Complete.

04

Connecting Choices to Outcomes

Complete.

05

When the System Breaks Down

← You are here

HEAR THIS ONCE

EVERY SYSTEM
BREAKS EVENTUALLY.
THE FAMILIES WHO
GROW ARE THE ONES
WHO REBUILD.

Perfection isn't the goal. Repair is the skill.

— REPAIR IS A PART OF THE SYSTEM

FAILURE MODES

WHERE SYSTEMS USUALLY BREAK DOWN.

- High-stress seasons: too many tournaments, too little recovery
- Role confusion resurfacing: old habits under pressure
- Athlete burnout: the system served the sport but forgot the person

— A SYSTEM THAT CAN'T SURVIVE STRESS WAS NEVER A SYSTEM.

05 · RECOGNIZING THE BREAKDOWN

EARLY WARNING SIGNS

DREAD BEFORE PRACTICE

She used to look forward to it. Now she looks for reasons to skip.

EMOTIONAL FLATNESS

Not sad, not angry just gone. The spark left.

FAMILY FRICTION

Sport is causing more conflict than connection. That's a signal, not a failure.

06 · THE REPAIR PROCESS

HOW TO REBUILD

NAME IT WITHOUT SHAME

'Our system broke down this month' is not a failure. It's an honest starting point.

SIMPLIFY

Go back to basics one preparation habit, one role reminder, one goal check-in.

ASK HER

'What would make this feel worth it again?' Her answer is your rebuild blueprint.

02

07 · REMEMBER THIS

SAVE THIS COME BACK TO IT

THE FAMILY THAT
CAN REBUILD AFTER
A HARD SEASON
HAS BUILT SOMETHING
REAL.

SAVE THIS. COME BACK TO IT.

- REPAIR IS THE SKILL

THIS WEEK

RUN A FAMILY SYSTEM CHECK-IN THIS WEEK.

✓ Ask your athlete: on a 1–10 scale, how much are you enjoying this right now?

Ask yourself the same question honestly.

✓ Name one thing that broke down this season in your family operating system.

✓ Make one specific, small repair, not a full overhaul. One thing.
