

Your Starting Point

PRE-SEASON

The most important ten weeks nobody talks about.

aring

SECTION 02 · BREAKTHROUGH TRACK · MAZE PERFORMANCE

01 · WHAT THIS PHASE ACTUALLY IS

THIS IS WHERE THE SEASON IS WON OR LOST.

BEFORE PRESSURE

This is where habits get built before the scoreboard tests them. Habits installed in pre-season are the ones that hold when games get hard.

BEFORE HARD LOSS

This is where language gets established before a hard loss requires it. You and your athlete know the words before you need them.

BEFORE DRIFT

The families who are intentional in pre-season do not panic mid-season. They have a system. They know their roles.

02 · YOUR TIMING MAP

WHERE YOU ARE. WHAT IS LIVE. WHAT IS NOT YET.

HABIT TRACKER

LIVE

Start now. Do not wait for the first game.
Habits built in pre-season hold mid-season.

PRACTICE PAGES

LIVE

Every practice counts. Set intentions before.
Record coach feedback after. This is your baseline.

GAME PAGES

NOT YET

Activate with first official game or tournament.
Pre-season scrimmages = practice pages, not game pages.

THE PRE-SEASON TRAP · FOR 15-18 ATHLETES

Pre-season is June, July, and August — which is also summer. All-in training without rest produces burnout by October. Complete rest without intention means September starts from zero.

Run your tracker through summer. Five habits. Thirty seconds before bed. That is not all-in. That is intentional.

03 · STRATEGIC FOCUS

BUILD THE HABITS BEFORE THE PRESSURE ARRIVES.

The question to answer every week in pre-season:

Are the five habits on my tracker becoming automatic?

When a habit stops requiring willpower it has been installed. Green consistently = move to the next thing. Amber or red = redesign the habit, not the willpower.

WAYPOINT 3 Outcome goals are the destination. Milestone goals are the road. You cannot get there by skipping the road.
